BIG SUM FOR COTTON.

A Bale From Texas Brings Two Thousand Dollars in New York.

IT WILL BE RESOLD.

The Money Comes Back to the Flood Sufferers in South Texas—Highest Ever Realized for One Single Bale.

New York, Aug. 1.—The first bale of new cotton marketed in 1899 was a record breaker and of course came from Texas. The bale was sold at the cotton exchange here and brought \$2000.

This is the largest sum ever received for a bale in this city and probably in the world. The proceeds of the sale go to the sufferers by the recent floods in Texas.

The purchaser was the New York cotton exchange itself, through its superintendent, William V. King.

Instead of taking the bale, the cotton change will send it at once to the Boston cotton exchange, where it will be sold over again for the same purpose. Whether it will then go to the other eastern cities depends upon the Boston purchaser.

The price of cotton at the present time is about 7 cents a pound, so that ordinarily the bale would bring about \$35. It weighs about 500 pounds.

Superintendent William V. King said that the largest price for a bale was the last year during the war, when one was sold for a lump sum of \$506, which was about \$1 a pound.

The bale was raised in San Patricio county, Texas, was shipped from Sinton by Governor Sayers to H. & B. Beer at New Orleans, sold there at auction for the benefit of Texas flood sufferers and shipped by that firm to the exchange at New York to be resold there.

Whitecap Notices.

Terrel, Tex., Aug. 1.—Whitecap notices have been posted in the neighborhood of Johnson's Point, this county, which are now being investigated by the officers here and at Kaufman. Pennsylvania's Pension Fund.

Philadelphia, July 1.—The Pennsylvania Railway company has decided to create a pension and superannuation fund for the benefit of the employees of the company. It is estimated that it will require a payment by the company of about \$300,000 per annum to make the fund effective.

ROOT TAKES CHARGE.

He Is Now the New Secretary of the War Department.

TAKING THE OATH.

It Was Administered by Judge Cole and Witnessed by Some Cabinet Officials—Alger Greets the New Secretary.

Washington, Aug. 1.—Elihu Root took the oath of office of secretary of war at 10:45 o'clock this morning. The ceremony occurred in the office of the secretary of war in the presence of Secretaries Gage and Hitchcock, Assistant Secretary Meiklejohn, a number of army officers in uniform and other employees and officials. The oath was administered by Judge Cole of the supreme court of the District of Columbia. The commission was in the possession of Assistant General Corbin. It was 10:44 when Mr. Root stood up and took the oath of office. Judge Cole then addressed him as "Mr. Secretary," and shook his hands and congratulated him. General Gage then advanced and shook his hands most cordially and said with evident feeling: "With all my heart I congratulate you and the administration. You will find around you here men who will help you in the arduous duties of your position. May God bless and give you strength."

Secretary Gage then stepped forward and congratulated Mr. Root. He was followed by Secretary Hitchcock, Assistant Secretary Meiklejohn, General Corbin and Chief Clerk Schofield.

General Alger picked up the commission signed by the president and attested by the secretary of state, appointing Mr. Root secretary of war. "Here is your commission," he said with a smile, handing it to Mr. Root, "in which you lose your identity and become Mr. Secretary. I go back to become a sovereign citizen of the United States and become Mr. Alger."

"I sincerely wish it were the other way," said Mr. Root.

BUYS MORE ISLANDS.

Uncle Sam Purchasing Coaling Station on the Coast of Chili.

Buenos Ayres, Aug. 1.—According to advices from Magellan Straits, the American minister at Santiago, Chili, has purchased various islands of the Wellington archipelago, with the object of establishing coal stations.

Wants a Coaling Station There.

New York, Aug. 1.—A special to The Herald from Washington, says:

The navy department has long desired a coaling station on the west coast of Chili, and it is thought not improbable that our minister to Chili may be conducting negotiations with a view to securing a coaling station in that locality, but action by congress will be necessary before it can be acquired. Wellington island is in longitude 49 degrees south, very near the coast of Chili. It is 138 miles long and 35 miles long.

Loving Is Confident.

New York, Aug. 1.—"I am progressing satisfactorily," said George B. Loving of Fort Worth to a Times reporter, who is here to organize a big cattle syndicate with a capital of \$25,000,000 with adjoining ranches in Texas and New Mexico capable of herding 600,000 cattle.

"The dispatch from Chicago," he continued, "announcing that John V. Farwell, Swift & Co. and others are interested in the scheme, is correct. I am satisfied there is plenty of money in the plan and it can be operated successfully."

Suing For a Whole Town.

Perry, O. T., Aug. 1.—Considerable excitement exists at Kildare, a town of 400 inhabitants, on the Santa Fe railroad, north of Perry, over a suit filed by Charles W. The case will be heard in the district court of Kay county. Kildare occupies 160 acres of land and has five grocery stores, four drygoods stores, four saloons and numerous business houses. Harper claims to have a title to the land on which the town is located.

Fruit Growing in Brazos County.

The Eagle reporter was much pleased with an inspection, last Sunday, of the orchard of Mr. J. H. White about 7 miles north of Bryan, in the Wickson neighborhood. Mr. White has several acres in peaches, plums, apples, Japanese persimmons, etc., and has had good returns in cash this year from the sale of fruit. His Japanese plums deserve special mention. He has about an acre in this fruit, containing 169 trees, which, at 75 cents per bucket, or \$2.25 per bushel, have netted him at the rate of \$4.50 per tree, the trees averaging a yield of 6 buckets, or 2 bushels. This makes \$760 per acre per year as the returns from an acre in this fruit.

Mr. White says he will show fruit with anybody in this part of Texas, the A. & M. College or elsewhere. He believes fruit raising will pay in this county as well as it will anywhere, if industriously and intelligently pursued.

The Rough Rider From Texas.

Mr. Hogg, of Texas was at Tammany hall yesterday. A bull in a china shop is nothing to him. He is a whole Texas ranch turned loose. At the sound of his voice the Tammany herd, which is usually as mild as a flock of sheep and as stupidly given to following their leader, were set loose in a wild stampede full of the spirit of Bryan and the cattle ranges. Yesterday was a great day for Hogg. As a rough rider Roosevelt is an amateur beside him. The Texan leans to cow punching by nature, and he had just as lief break the back of a Tammany program as of a bucking broncho. And he proved it yesterday. He broke the back of the Tammany program, he stamped the Tammany crowd till it tossed Augustus Van Wyck over into the dust heap and ran off, leaving Mr. Croker's lieutenants and stablemen white faced and trembling. No cow-boy ever rode into a peaceful community with a whoop and did it up more completely.—New York Tribune

FAST MAIL WRECKED.

Four Persons Killed, Six Injured and Cars Demolished.

Boone, Ia., Aug. 1.—The fast mail train on the Chicago and Northwestern railroad, which left Chicago at 10 o'clock Monday night jumped the track at the Kate Shelly curve, just east of Des Moines river bridge at 5 o'clock this morning. The engine and all of the cars were wrecked.

The following were killed:

Engineer Masterson of Boone.

Fireman Schmidt of Boone.

Postal Clerk Stone of Austin, Ills.

J. J. O'Brien, postal clerk, living at Chicago.

The following were injured, but the extent of the injuries cannot be determined until the surgeon of the hospital here has examined them. They are covered with blood:

Postal Clerk Packer of Dixon, Ills.

Postal Clerk Hoyt of Cedar Rapids, Ia.

Postal Clerk Shirk of McCausland, Ills.

Postal Clerk Roorick of Dixon, Ills.

Messenger Helper Pigafoos of Missouri Valley, Ia.

Brakeman Thomas Flannery was slightly injured internally.

Others on the train escaped unhurt.

The cause of the derailment is unknown at present.

The engine rolled completely over and the body remained clear of the track while the front trucks were thrown 150 feet into a cornfield. All the cars went over the bank.

Nothing was left of the express car but the wheels. The postal car was badly wrecked and the storage car and mail car were turned over on their sides.

The dead were placed in charge of an undertaker here and the injured are being attended to in the local hospital.

SERIOUS ASPECT.

Italian Officials Declare Four of the Lynched Were Italian Subjects.

Washington, Aug. 1.—The international phase of the Italian lynching in Louisiana has assumed a rather more serious aspect as a result of several official reports received here. These show that the Italian officials on the scene declare that four of the five men lynched were Italian citizens in the fullest sense. While the reports are not final, the Italian authorities have no doubt but they will be borne out by inquiries now in progress.

The Italian authorities have also taken note of the statement attributed to Dr. Hodges, whose assault led up to the lynching. This states that after the shooting he walked away, indicating that the offense was not of a character warranting the lynching of five persons.

Gunboat in a Collision.

New York, Aug. 1.—A collision occurred between a ferryboat on the New York Williamsburg line and the United States gunboat Dolphin, and the bow of the gunboat cut through the ferryboat in the engine room breaking the main shaft and damaging considerable the machinery. The gunboat's bow was bent and several feet of rail was torn away. Secretary of Navy Long, was aboard the Dolphin. The injuries to the Dolphin were trifling as evidenced by the fact she continued on her way up the river.

Failed to Catch Ketchum.

Austin, Aug. 1.—Tom Ketchum, the notorious train robber, who was believed to have been cornered two days ago, in Tom Green county, by a posse of state rangers, and deputy United States marshals, has again given the officers the slip. His rendezvous was found but before an attack could be made on the place, Ketchum and the two members of his band who were with him, evaded the officers. The outlaws are believed to be in hiding, and a thorough search of that section will be made for them.

Double Killing in Louisiana.

Leesville, Aug. 1.—A fatal shooting affray occurred at Burr's Ferry, 20 miles west of here, in which two men, Jerry Fowler and his son Joseph, were killed by William Jarrells. The unfortunate affair grew out of a case of alleged hog stealing which had been tried before the magistrate's court. Several shots were fired by the two parties and two horses were wounded by stray bullets. Jarrells came to Leesville and gave himself up.

Lumber Advances.

New York, Aug. 1.—There has been a great advance of from 15 to 20 per cent in the price of lumber since Jan. 1. The due demand for hickory, oak and other hardwoods is particularly sharp. Quartered oak costs \$15 more per thousand feet than it did six months ago and it is hard to obtain. Spruce and pine also have advanced, though not so materially as hardwoods.

Severe Storm at Carthage.

Carthage, Mo., Aug. 1.—This section was visited by a heavy electric and rain storm. Several houses were struck and damaged by electricity. Two persons were shocked and some stock killed. The heavy rains have made sure one of the heaviest crops of corn known in this country for years, and insures good pasture for cattle.

Seven Thousand Steers Sold.

Austin, Aug. 1.—Advices were received here from Mason county that Major George W. Littlefield sold 7000 steers on his ranch in that county to Indian Territory parties. The price paid was \$106,000.

Marblehead at Coquimbo.

Santiago, Chile, Aug. 1.—The United States cruiser Marblehead, which is on her way from Peru to Mare Island has left Coquimbo, Chile, for Callao.

We feel that our earthly loss is her heavenly gain. May God grant power upon her husband, relatives and friends to enable them to stand the sad afflictions.

Relatives mourn not for she is not dead but sleepeth. She is only gone to live with her Father in Heaven, and she now stands waiting and watching for her loved ones as they cross over the death rolling river and bid them to enter at the pearly gates, and march with them up the golden street where they all join the angels in shouting and singing hallalujah to God.

Mr. E. Mixer, one of the proprietors of the Dewey Nurseries of Richard, La., is in our town selling shade trees. Mr. Mixer is also selling a side-line to our merchants—a cleaner and polisher. He says it removes grease spots from clothing without injury to the fabric and polishes all of the metals, and stands without a peer for cleaning painted walls. He invites all who have grease spots on their clothing to call at the Central hotel and take them out free of charge during his stay. 215

His Retort Settled It.

"I can remember a good many years back, said a Detroit veteran in politics, "and whatever way be said as to the integrity of our present statesmen, campaigns are conducted in a great deal more moderate tone than they used to be. Then it was the usual thing to indulge in the strongest possible abuse of men and parties."

"I once heard a joint debate between a couple of candidates for our legislature that will serve to illustrate. They taunted and berated each other till all other questions were lost sight of in the popular anxiety to see which excelled in this style of warfare."

"Finally the hotter headed of the two burst out in an announcement that he could whip his rival or any of his friends."

"That reminds me," said the other coolly, "of a dog that my father used to have that could whip any dog in the neighborhood or any that came that way with the teamsters."

"What's the application, sir?" roared the other. "I'll stand no innuendoes, sir. Make your application if you dare."

"It is simply this, my pugnacious friend; no one ever thought of sending father's dog to the legislature."

The fire eater remained at home.

AMERICANS KILLED.

The Yaqui Indians in Mexico Is Causing Much Trouble.

Ortiz, Mex., Aug. 1.—Any doubt that the Yaquis are on the warpath in earnest was dispelled when the news reached here that several more Americans and Mexicans had been killed in Puebla or towns in the Yaqui river valley south of this station.

The courier who came in with the news of the slaughter declares that he saw a desperate fight at a point 40 miles southeast of Ortiz, and that he has positive evidence that J. F. Remley, a merchant of Hermosillo, and E. Miller, a photographer in his employ, were among the killed.

Remley was one of the best known Americans in Sonora. The inhabitants of the towns in and near the Yaqui valley are in a state of terror.

No information is obtainable as yet of the number of fighting Indians under arms, but if the outbreak is of the proportions of the war ended in 1897, the number may be placed at between 3000 and 4000. This outbreak is a surprise to the state and army officials.

It is impossible to secure accurate figures as to the total number of killed to date, but the estimate is that at least 50 on each side is not considered excessive.

NOT SPREADING MUCH.

Only Two New Cases and One Death Reported at Hampton.

Washington, Aug. 1.—Surgeon General Sternberg has received the following telegram from Surgeon Vickery in charge of the National Soldiers' Home, at Hampton:

"Our epidemic not extending. The last day two cases and one death. The origin not yet discovered.

Seven Deaths at the Home.

Washington, Aug. 1.—The latest official advice received up to 8 o'clock last night show a total of 37 cases and 7 deaths from yellow fever at the Soldier's home at Hampton, Va. One new case occurred at the home Monday. Thus far the disease has been confined to the home, but all surrounding towns are excited and a vigorous quarantine is being maintained.

Politics Cause a Slander Suit.

Independence, Kas., Aug. 1.—A slander suit has been instituted in the district court here, growing out of the Republican county convention last week. The suit is brought by Celia Evans, a daughter-in-law of George H. Evans, a prominent politician and wealthy farmer of Cherry township. It is against Levi Surber, a neighbor. Evans was a candidate for commissioner, and Surber worked against him. The plaintiff alleges that Surber three times in one day made slanderous remarks, insinuating that improper relations existed between Evans and herself. She says her reputation was damaged, and she now asks for \$9000 damages.

Used an Ax on His Stepfather.

Independence, Kas., Aug. 1.—A fight that threatens to have fatal consequences occurred south of here in the Indian Territory among a party of "movers" who have been traveling overland with a 10 cent show, the chief at traction of which is a dwarf. E. C. Sherrick, one of the showmen, had a quarrel with his wife. Her stepson took up the quarrel, and Sherrick went to the wagon for a gun. The stepson picked up an ax and struck Sherrick in the head, splitting open the skull. Sherrick is still alive, but the doctors say he can live but a few hours. The stepson gave himself up to the officers.

Afghan Officers Executed.

Berlin, Aug. 1.—A dispatch from St. Petersburg states that General Abdul Chakim Khan and three other high Afghan officers have been publicly shot by order of the ameer in the market square at Cabool. The crime for which they were sentenced to death was the embezzlement of money intended for the payment of the soldiers, their stealing having been conducted systematically for a number of years. Their execution has caused a tremendous sensation among the Afghans.

Another Combination.

Waco, Tex., Aug. 1.—The Cotton Belt has secured options on 35 acres of land east of Waco. The deal is said to be on between this road and the Texas Midland. The latter will build in from Ennis, going thus to Paris and using the connections of the Cotton Belt to Memphis, shortening the route between Waco and Memphis by 94 miles. The surveys of the two roads are said to be now in the field. The combination seems to be well grounded.

Another Fatal Accident.

Galena, Kas., Aug. 1.—Andy Mahaffy numbers the fourteenth man killed in the Missouri-Kansas mining district near here within the past 10 days. Mahaffy was employed at the Crawford mine, on the Windsor ground, near this city. He worked all night, and while sitting near the shaft fell asleep and tumbled nearly 100 feet into the mine below. He lived only a few hours after being rescued.

Joins the President.

Plattsburg, N. Y., Aug. 1.—Postmaster General and Mrs. Charles Emery Smith have joined the presidential party here for a stay of several weeks. Mrs. McKinley continues to improve steadily.

Killing at Plainview.

Plainview, Aug. 1.—John Lattimore, the 21-year-old son of J. P. Lattimore, was stabbed to death here. Don Sebastian is under arrest, charged with the crime.

Sir James Edgar Dead.

Ottawa, Ont., Aug. 1.—Sir James Edgar, speaker of the house of commons, died at Toronto.

PHILIPPINE CAMPAIGN.

A Volunteer Officer Depicts the Situation as Being a Very Bad One.

San Francisco, Aug. 1.—An officer of one of the volunteer regiments in the Philippines has written the following letter to the Associated Press which is dated at Manila June 27:

"The arrival of the rainy season finds the insurrection as vigorous as it has been at any time since the outbreak. The insurgent armies are well recruited, notwithstanding their heavy losses and are well fed and clothed. They have profited by their five months of warfare against the Americans. They are fast adopting American tactics and are becoming better disciplined and more skillful in the use of their weapons every day. One hundred thousand soldiers should be here ready for business by the beginning of the dry season in November. Garrisons could then be stationed at strategic points.

"A continuous warfare cannot be carried on in this enervating climate by the same troops. Frequent reliefs are necessary. Troops should not be kept here longer than a year. Men from a northern climate retain their vigor for six or eight months after arrival here and then begin to succumb to the various ailments of tropical weather. This is exemplified in the cases of the volunteers and those regulars who have been in the Philippines since last summer. The most of them are saturated with malaria, many have rheumatism and all are greatly debilitated. They are unfit for further duty and recuperation seems slow and unsatisfactory. As it is with them so it is likely to be with their successors.

"The 8,000,000 people of the Philippines are as highly civilized as the 12,000,000 of Mexico. If the American people will imagine the United States to have acquired Mexico against her will and to be engaged in an attempt to put down a universal rebellion of Mexicans with 20,000 troops, they will have a duplicate picture at close range of the situation in the Philippines, with the exception that the climate of the Philippines is from 10 to 15 degrees more tropical than that of Mexico."

ANOTHER THROUGH LINE.

The Cotton Belt Forms a Combination With a Chicago Road.

Chicago, Aug. 1.—In a comparative short time Chicago will tap the great Texas country by another line of railway. The new route is to be established by an arrangement between the Chicago and Eastern Illinois and the St. Louis Southwestern, known as the Cotton Belt. The connecting link of 86 miles that is to bring these two roads together and form the new system is now being built from Marion to Thebes, Ills.

Last year the Cotton Belt built a new branch to Grays Point, which is directly across the river from Thebes, where the Chicago and Eastern Illinois' new line will end. For a time the connection between the two roads will be by terry, though later on a bridge will be built.

It is said that through passenger as well as freight trains will be put in service by the new system as soon as it is in working order. The opening of the line will take place in about 90 days.

Accident on the Katy.

Waco, Tex., Aug. 1.—A bad accident occurred on the Missouri, Kansas and Texas between Waco and Hillsboro, as a result of which Fireman Hoatson will likely lose his life. Engine No. 213, in charge of Engineer Fitzpatrick, was pulling a heavy train south from Hillsboro when the engine blew up and Fireman Hoatson, who was standing in front of the door shoveling coal, was blown with terrific force back into the tank. He was badly scalded from head to foot and otherwise injured by being cut and bruised. Engineer Fitzpatrick was not injured, but his escape was a narrow one.

Jim Nite's Case.

Henderson, Tex., Aug. 1.—The town is alive with hundreds of visitors attracted by the trial of the case of the State vs. Jim Nite, who is charged with the murder of two prominent citizens of Longview during the "Dalton bank robbery" at that place in May, 1894. A motion for a change of venue was overruled and then a motion of continuance was made. This is now before the judge for a decision. The state is ready with its case.

Convicts Made Their Escape.

Ennis, Tex., Aug. 1.—A squad of county convicts are being worked on the public road at Garrett and two of them caught the guard unaware and overpowered him. They took his gun and pistol away from him and left, going toward the river. Officers here were notified and a posse left for Village creek to try to head off the fugitives.

Young Man Drowned.

Ben Franklin, Tex., Aug. 1.—Clad Hurley a young man about 18 years old, was drowned in Sulphur river, about a mile below this place. He with other young men were bathing and he could not swim. He went beyond his depth. Two of his associates in trying to rescue him were almost drowned.

Smith Will Get It.

Baltimore, Aug. 1.—It is now conceded that John Walter Smith will be the Democratic nominee for governor of Maryland. He was recently elected to congress from the First district.

Turned Over to New Hands.

Cincinnati Aug. 1.—At midnight Monday night the Baltimore and Ohio Southwestern railway was turned over by the receivers to the new officers.

ENTWISTLE ADVANCED.

He Is Hero of Manila Bay and Retired as Rear Admiral.

New York, Aug. 1.—From engineer to rear admiral is the advancement won by James Entwistle, one of the heroes of Manila bay. Entwistle was in the navy during the civil war and has served Uncle Sam on the seas ever since. When war was declared with Spain he had risen to be fleet engineer with Admiral Dewey's squadron. He was on the Olympia at the admiral's side during the battle and his promptitude was such that he was complimented afterward by Dewey. The great commander declared to that the faultless condition of the machinery throughout the fleet and the excellent management of Entwistle were largely responsible for the wiping out of the Spanish ships.

Admiral Dewey furthermore referred in a very complimentary manner to Entwistle in a speech which he made in Austria. He must have spoken at headquarters as well, for it was not long after the great battle that a commission as captain arrived for Entwistle.

Captain Entwistle was near the age limit, and was sent to his home in Paterson, N. J., with the expectation of being retired. He is spending the summer at Lake George, and received no information of the action in his case until a few days ago. The hen received a letter from Acting Secretary Allen of the navy department, informing him of his retirement under the provisions of the personnel bill. The letter also informed Captain Entwistle that he would hereafter have the rank and three-quarters of the sea pay of a rear admiral.

Rear Admiral Entwistle will finish the summer at the lake and thinks that he may afterward be assigned to shore duty. He has just received a fine medal of the sort ordered by congress for all the heroes of Manila.

KILLED FOR A WITCH.

An Old White Woman Murdered by Three Seminole Squaws.

Independence, Kas., Aug. 1.—The report comes from the Indian Territory south of here of the horrible murder of an old white woman in the Seminole Indian country by three Seminole women. Of late there have been several deaths and other misfortunes among the tribe and it was finally decided that this old woman, Hampton by name, who lived with her son, was a witch and had caused the bad luck. She was attacked by three Indian squaws who beat her to death with clubs. They have been arrested.

Valuable Information.

San Francisco, Aug. 1.—John Zachert, a mining expert of this city, claims possession of information which he believes will have important bearings on the Alaskan boundary dispute. Zachert declares the old Russian boundary is defined by monuments placed at short intervals. He is of the belief that duplicates of the charts are on file at St. Petersburg. Zachert says the expedition have had little trouble finding and following up this boundary line of monuments and the charts may prove of inestimable value of the settling of the dispute between this country and Canada.

Suffered a Painful Accident.

Denison, Tex., Aug. 1.—A. P. Chamberlain met with a very severe and painful accident here and as a result will probably lose the sight of one eye. He stepped into a grocery store to get a bottle of soap. Just as he raised the lid of the ice chest to obtain the bottle, one of the flasks inside exploded and a piece of glass struck him in the right eye, cutting the eyeball open.

Death of Mrs. Kate Sprague.

Washington, Aug. 1.—Mrs. Kate Chase Sprague, wife of a former governor of Rhode Island, and the daughter of the late Salmon P. Chase, governor of Ohio, United States senator and chief justice of the United States supreme court, died at her home in "Edgewood," in Washington's suburbs. She was 59 years old.

Sunday Business Restricted.

Marshall, Tex., Aug. 1.—The crusade of the W. C. T. U. against the open saloon on Sundays has resulted in preventing confectioners from selling anything but ice cream and ice cream soda on Sundays. The drug stores dare not sell tobacco, cigars or anything else save drugs and medicines on Sunday. It is hinted that the saloonmen are at the bottom of this last move.

Railway Man Dead.

Laredo, Tex., Aug. 1.—Joe Stevens, the bridge foreman of a bridge company, who was badly wounded in an accident in placing a steel bridge for this company across Santa Isabel creek for the Rio Grande and Eagle Pass railway died in the Mercy hospital here, and his remains, by direction of the bridge company, were shipped to New Columbia, Pa.
